

Leading Provider of IT Network and Security Solutions Joins 1nService

Bellevue, WA. June 21, 2010 - 1nService, the leading international community of advanced technology integrators, has added a new member company to its community. We are pleased to announce PC Troubleshooters, Inc. as our newest member company. Headquartered in Warwick, RI, PC Troubleshooters offers award-winning innovative products and services that seamlessly integrate with one another to provide their clients with a streamlined IT infrastructure. This combination and freedom from IT worries enables businesses to grow and achieve its highest potential. As the demand for IT services continues to increase, PC Troubleshooters has consistently risen to the challenge by providing revolutionary products and services coupled with superior customer service.

PC Troubleshooters has been an industry leader providing small-to-medium sized businesses I.T. and disaster recovery solutions, support and maintenance of computers, networks, servers, workstations and applications. PC Troubleshooters has been prestigiously ranked for over five years among Providence Business News' Fastest-Growing Private Companies and Fastest-Growing Technology Companies.

"I am proud to partner with 1nService and its member companies." Said Eric M. Shorr, President of PC Troubleshooters, Inc. "This relationship will allow PC Troubleshooters to continue to evolve by taking advantage of the tremendous skills and expertise found within this dynamic organization."

1nService CEO Paul Cronin stated, "1nService is constantly expanding our reach, depth and capabilities. With the addition of PC Troubleshooters, an expanding and growing company, we continue to outreach and build our network system"

About PC Troubleshooters, Inc:

Founded in 1992 on the campus of the University of Rhode Island, PC Troubleshooters, Inc. has become an industry leader providing small-to-medium sized businesses IT support and consulting services, managed services, disaster recovery solutions and maintenance of computer networks, servers, workstations and applications. PC Troubleshooters, Inc.'s expertise has evolved to providing services in the cloud; from remote server and desktop support to monitoring and managing client's networks virtually. The business model has shifted from being reactive to proactive, as they focus on building solutions that prevent downtime for their clients.
